Mission Statement	Extremely dry or chapped skin will experience immediate relief through intense hydration and improved skin integrity.
Recommended For	Dry, combination, post-resurfacing treatment, extreme dryness/cracking
Active Interest	Rose Hip Seed Oil - soothing and emollient; rich in vitamins A, C and E Prickly Ash Bark Extract -used by Native Americans to help heal and reduce the pain of wounds; also assists circulation and supports the lymphatic system L-alpha-bisabolol - derived from German Chamomile (Matricaria Recutita); has healing, anti-inflammatory and antimicrobial properties D-alpha-tocopherol (vitamin E) - antioxidant and emollient with healing properties. Squalane - greaseless oil that deeply moisturizes nourishes and plumps the skin while facilitating the absorption of other actives
gloComplex	Phyllanthus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron)
Directions	Apply to skin after cleansing and toning. May be used in the day or evening. Layer over a gloSerum for additional treatment benefit.
Composition	Petrolatum, Zanthoxylum Americanum (Prickly Ash) Bark Extract, L-alpha-bisabolol, Rosa Rubiginosa Seed Oil, Phyllanthus Emblica (Amla) Fruit Extract, L-carnosine, Niacinamide, Spin Trap (Phenyl Butyl Nitron), D-alpha-tocopherol, Squalane, Lavandula Hybrida Oil, Cymbopogon Martini Oil
Notes	Can be applied to sunburns, but NOT sunburns that are still warm to the touch. The petrolatum in this product can trap the heat of fresh burns, and thus delay relief. Wait approximately 24 hours before applying to a sunburn.
