

# glōClear Acne Cleanser

<b>Mission Statement</b>	Salicylic acid is a powerful acne-fighting ingredient that both treats and prevents breakouts. Paired with the gentle scrubbing beads, which help to open pores, this beneficial ingredient is able to deeply penetrate, delivering advanced results.
<b>Recommended For</b>	Acneic skin, congested, oily, monthly or occasional breakouts
<b>Active Interest</b>	<b>2% Salicylic Acid</b> - Smoothes skin and improves texture, helps prevent acne and control oil. <b>Scrubbing Beads</b> - Provides gentle physical exfoliation without stress or irritation to the skin. <b>Apple Enzyme</b> - lipo-animated surfactant obtained by the acylation of essential amino acids from apple juice. A natural concept that respects the skins natural barrier. Foaming Agents (Isononyl Isononanoate, Polyhydroxystearic Acid, Ethylhexyl, Sodium Cocamidopropyl Betaine, Sodium Cocamidopropyl PG-Dimonium Chloride Phosphate) - The chemistry from the heat of the body and the friction from rubbing the cleanser into the skin will create a thick lather.
<b>pH</b>	4.0
<b>Directions</b>	With dampened hands, massage a small amount of cleanser onto face. Massage gently into skin for 60 seconds and then remove by rinsing with warm water.
<b>Composition</b>	Active Ingredient: Salicylic Acid - 2% Inactive Ingredients: Amorphous Magnesium Silicate, Butylene Glycol, Cocoyl Isethionate, Disodium EDTA, Ethylhexyl, Fragrance, Iodopropynyl Butylcarbamate, Isononanoate, Isononyl Isononanoate, Methoxynonafluorobutane, Phenoxyethanol, Polyacrylate-13, Polyethylene, Polyhydroxystearic Acid, Polyisobutene, Polysorbate 20, Purified Water, Sodium Bisulfite, Sodium Cocamidopropyl Betaine, Sodium Cocamidopropyl PG-Dimonium Chloride Phosphate, Sodium Cocoyl Apple Amino Acids, Sodium Hydroxide, Xanthum Gum
