

# glōClear Anti-Blemish Treatment

<b>Mission Statement</b>	This active formulation battles breakouts at the root to destroy current blemishes and prevent future flare-ups. Scientifically proven Benzoyl Peroxide provides instant results, which is key for blemish emergencies.
<b>Recommended For</b>	Acneic skin, congested, oily, monthly or occasional breakouts
<b>Active Interest</b>	<b>5% Benzoyl Peroxide</b> - An oxygen-releasing chemical in the organic peroxide family. With application to affected area, it is absorbed and releases the oxygen to destroy P.acnes bacteria and will have some effect on microcomedo formation. <b>Aloe Vera Barbadosis</b> - The most medicinally beneficial species of the over 200 known species of Aloe Vera. Improves skin hydration, offers anti-inflammatory benefits, aids in healing and repair of epidermal cells. <b>Rosemary</b> - A powerful antioxidant and anti-inflammatory. Its numerous, naturally occurring chemicals make it very useful in fighting acne. <b>Glycerin</b> - Acts as an emollient and lubricant. Also serves as a humectant that draws moisture from the air into the skin.
<b>pH</b>	5.8
<b>Directions</b>	Apply all over face or as a spot treatment in problem areas. Once breakout has cleared, use the glōClear Complexion line to maintain results.
<b>Composition</b>	Active Ingredient: Benzoyl Peroxide - 5% Inactive Ingredients: Deionized Water, Propylene Glycol, Glycerin, Sorbitol, Phenoxyethanol, Ethylhexyl Glycerin, Matricaria (Chamomilla Recutita) Flower Extract, Cucumber (Cucumis Sativus) Fruit Extract and Rosemary (Rosmarinus Officinalis) Extract, Aloe Barbadosis Gel, Carbomer, Triethanolamine, Disodium EDTA
