<b>Skin Type(s)</b>	all skin types
<b>Mission Statement</b>	Battles discolorations with a highly effective combination of lighteners, melanin inhibitors and mild exfoliants. Additional ingredients complement the lightening process with benefits that help support the skin's health, strength and brightness.
<b>Recommended For</b>	All skin types with hyperpigmentation
<b>Active Interest</b>	<b>2% Hydroquinone</b> - skin lightener that inhibits the synthesis of melanin <b>Kojic Acid</b> - effective inhibitor of melanin synthesis that is derived from Japanese mushrooms <b>Azelaic Acid</b> - a grain-derived compound effective against skin discolorations <b>Lactic &amp; Salicylic Acids</b> - exfoliate to accelerate the lightening process <b>Ascorbic Acid</b> - antioxidant that strengthens collagen, enhances elasticity, assists in skin brightening, and helps accelerate repair
<b>pH</b>	<b>3.0</b>
<b>Directions</b>	Apply a small amount to affected areas once or twice daily or as directed. Limit daily use to 6 months, wait 1-2 months before resuming. Reduce frequency of use or discontinue use if irritation occurs.
<b>Composition</b>	Hydroquinone, Propylene Glycol, SD Alcohol 3-C, Azelaic Acid, Aqua (Distilled Water), Hamamelis Virginiana (Witch Hazel) Extract, L-lactic Acid, Kojic Acid, Salicylic Acid, L-ascorbic Acid, Hydroxypropyl Methylcellulose
<b>Notes</b>	A patch test is highly recommended 24-48 hours prior to treatment.  Sun alert: The AHAs in this product may increase sun sensitivity. Wear a sunscreen daily.  It is particularly important to practice good sun protection during a skin brightening treatment. Unprotected or excessive sun exposure can delay or inhibit results, or even exacerbate existing pigmentation problems.
